

## DKT's Total Number of Providers Trained and Detailed in 2023

Total number of estimated health providers trained / detailed. This includes those providers (doctors, midwives, nurses) who have received formal training (in person, virtual, remote) as well as those providers (pharmacists, pharmacy assistants, chemists, etc) who may have been detailed by a med rep or salesperson. Detailing suggests more than a simple visit but rather that the DKT rep imparts some knowledge or capacity building to the provider to enhance their ability to provide higher quality services.

Program	Formal training (in-person or online) of health providers	Detailing	Total # of health providers trained/detailed in 2023
Brazil / South Am.	10,411		10,411
